

Are you overpaying for waste hauling?

Wastemaster will tell you.
And you might save some money.

wastemaster®

YOUR RESOURCE FOR WASTE DISPOSAL COST SAVINGS

The Bottom Line

Do you pay too much for your waste hauling services?

Probably. Fact is, **the industry doesn't have standardized pricing.** This year's "best" price may not be next year's. And your charges could be 50% more than the business next door—with the same hauler, the same size dumpster and same amount of trash.

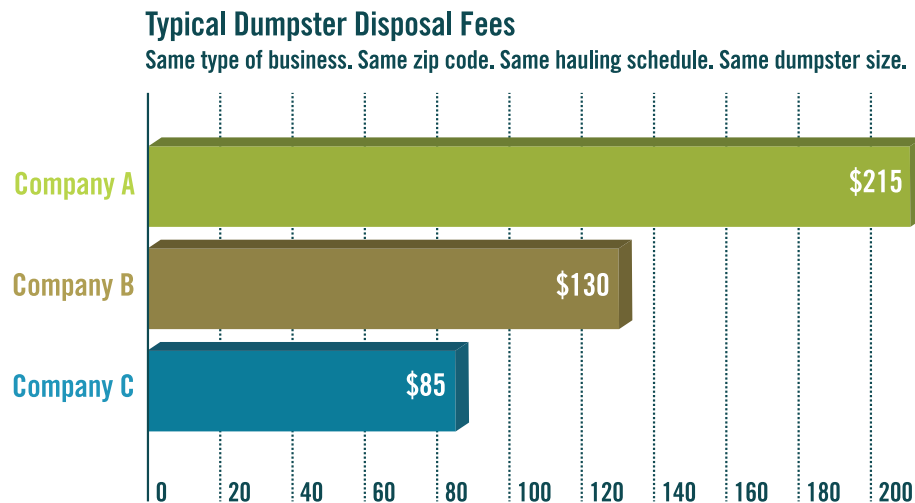

Wastemaster can help put that wasted money back in your pocket. We put our industry experience, know-how and relationships to work for you to assess your rates. If we can help you save money, we'll tell you.

Savings Made Simple

Tapping into our service is easy. Just tell Wastemaster what your current rate is. Provide a copy of your last invoice and we'll do a free assessment. We'll let you know if you can save money or if you are getting a fair price.

When we propose cost savings, we will then negotiate rates and contracts from the waste haulers. There is no commission or fee from Wastemaster. Our sole objective is to secure a fair price for you for your waste hauling.

Let's Talk

We can help any organization that generates waste. Retail businesses are a perfect fit: from bakeries to car washes to auto body shops and restaurants, and more. We also work with offices, condo buildings, manufacturers and non-profits. Almost any business can save money on their waste disposal costs if they work with us.

Wastemaster helped us immediately save 24%

President—Specialty Food Store
Zip Code 60626

I always thought that waste haulers priced everyone the same.

CEO—Medical Office Building
Zip Code 91030

Wastemaster saved us thousands of dollars.

Facility manager—Food wholesaler
Zip Code 60007

Don't overpay anymore.
